

Gluten Free Menu

The Armory Smokehouse is committed to providing safe dining options for those who suffer gluten sensitivity and intolerance. We certainly are not a gluten free restaurant, but we do our very best to be as gluten “friendly” as possible. We take special care to always change our gloves when handling gluten free items. Work surfaces are cleaned and sanitized as needed to prepare gluten free items. We also have two dedicated fryers that are never used for items that are battered or breaded or otherwise contaminated with wheat, oats, barley, or rye products.

The following menu items can be prepared gluten friendly/gluten free. Please alert your server and if you have any questions, please don't hesitate to ask.
